**NITEO PARTNERS' CONVERSION AND MIGRATION SERVICES
SUPPORT COGNOS 8.3 RELEASE**

EDISON NJ, JANUARY 30, 2008 – Niteo Partners, an NEC Company, announced today that its Conversion and Migration services are enhanced to include Cognos BI 8.3 – the latest version of Cognos available.

Recently Niteo has been recognized by Cognos with both the "North American Services Partner of the Year Award" and the "Platinum Partner Award" for its role in Cognos' ongoing solutions and sales success in North America. Niteo is also the only "Preferred Partner for Cognos Conversion Services."

Niteo Partners provides two powerful options to help companies standardize on Cognos 8.3:

- Conversion Services support BI standardization from other platforms to Cognos.
- Migration Services enable efficient implementation from earlier versions of Cognos.

Both offerings include a free estimate service followed by a detailed application assessment and proven dual shore delivery model. Niteo's services and adaptable toolsets support the ability to take advantage of the latest Cognos functionality at a lower total cost of ownership.

"Cognos 8.3 includes enhanced dashboard capabilities, tighter integration with Enterprise Planning and a clear path to migrate PowerPlay components", said Frank Bianchi, Senior Vice President of Client Services, Niteo Partners. "Niteo has differentiated expertise and methodologies to support organizations who are undertaking standardization initiatives, performance dashboard projects or who are looking to take advantage of the enhanced functionality of Cognos 8.3 at a lower price point."

Niteo will be holding free web-based seminars to demonstrate the Cognos 8.3 Conversion and Migration process on February 5th and February 7th at 11:00am and 2:00pm EST. For information on how to register for these events please visit www.niteo.com or contact us at info@niteo.com.
